Odinsa receives IR Issuer award from The Colombian Stock Exchange

Odinsa S.A. informs that today for the seventh consecutive year and as a fixed income issuer, the IR Committee of the Colombian Stock Exchange (BVC) awarded it the IR Issuer Recognition, by virtue of its good information disclosure and investor relations practices

This recognition aims to make Colombia a more attractive market for investment, ensuring, among other things, that issuers publish their financial statements on a quarterly basis, maintain a smooth communication with investors to meet their requests or requirements, and have a representative to attend their inquiries. In this sense, Odinsa has led in its sector the implementation of good practices that ensure that both investors and public opinion know transparently the financial condition of the company and each of its concessions.

This ratification of the Stock Exchange, to the concession company of the Grupo Argos, shows the trust that the company arouses in the financial sector and the transparency it transfers to its projects.
