OCCUPATIONAL HEALTH AND SAFETY POLICY

ODINSA S.A . a company dedicated to the structuring, promotion, management and development of road and airport infrastructure projects, declares its commitment and interest in protecting the safety and health of its employees, developing programs aimed at promoting a culture of prevention and self-care, taking into account a continuous improvement of the Health and Safety Management System, which allows us to identify, assess and control hazards, in order to prevent accidents at work and occupational diseases. Moreover, the company undertakes to ensure that its contractors and subcontractors comply with the requirements established on Occupational Health and Safety issues.

This Policy is governed by current Colombian legislation on Occupational Health and Safety.
